- **UPCYCLED & RECYCLED FABRICS**
- **BUY 1 ITEM, WE PLANT 1 TREE**

25 YEARS OF FAMILY BUSINESS

Gypsy & Loic

We're a family-run business based in Northern California. Gypsy and Loic (G&L) design side by side as a husband and wife team, working alongside their two kids and Gypsy's mom and dad.

For over two decades, we've been dedicated to creating unique accessories made from sustainable materials. What began as a small idea has grown into a full family of thoughtfully designed products.

Thanks to the continued support of our retailers and customers, we're able to keep producing styles with a very low impact on the earth.

We know the fashion industry can be wasteful and we've chosen a different path. By upcycling existing resources, we reduce waste and give new life to beautiful materials.

We believe you shouldn't have to choose between style and sustainability. With our accessories, you can look good—and feel good about it too.

As we celebrate this milestone, we raise a grateful, slightly thread-covered toast to everyone who's been part of the journey. Here's to many more years of creativity, collaboration, and making good things together.

THE ICONS THAT DEFINE US

80% OF OUR COLLECTION IS CUT AND SEWN IN CALIFORNIA.

WE PARTNER WITH SMALL FAMILY OWNED SHOPS TO MAKE OUR PRODUCTS AND HAVE MADE LONG LASTING RELATIONSHIPS WITH THEM.

ALL OF OUR FABRICS ARE EITHER RECYCLED OR UPCYCLED WHICH MAKES OUR PRODUCTS LIMITED EDITIONS.

OUR ZERO WASTE MISSION HAS DIVERTED OVER 100,000 LBS OF FABRICS FROM LANDFILLS

FOR EVERY ITEM WE SELL, WE PLANT A TREE WITH "TREES FOR THE FUTURE". THEY HELP IMPOVERISHED FARMERS IN AFRICA CREATE PERMACULTURE FOOD FORESTS AND TEACH THEM TO BECOME SELF-SUFFICIENT AND SUSTAIN THEIR FAMILIES.

WHAT is UPCYCLED FABRIC?

- Every year fashion houses from the garment industry have leftover fabrics that will not be used again.
- We are talking about hundreds of thousands of yards.
- We find these fabrics and give them a second chance

- Over the past 25 years, we've kept over 100,000 lbs of fabric out of landfills.

WHAT is RECYCLED FABRIC?

- 100% Cotton fabric scraps and garments are recovered which would otherwise be thrown away.

- Fabrics are sorted by color and broken down into fibers with shredding machines.

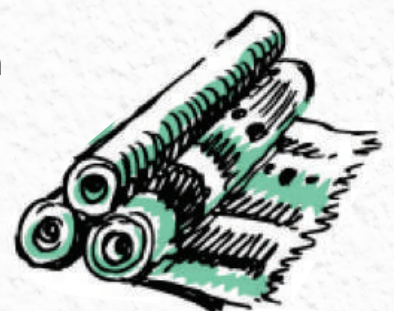

- Fibers are blended with recycled polyester to add strength and achieve the desired color.

- Fibers are spun into ready to use yarns.

- The yarns are knitted or woven into new plush fabrics and it all takes place in the USA.

OUR FAIR TRADE STORY CONTINUES

KATHMANDU SEWING TEAM

We're proud to continue our partnership with a Certified Fair Trade company based in Kathmandu, Nepal.

They are a social enterprise committed to quality craftsmanship and empowering marginalized communities—providing survivors of exploitation and discrimination with fair wages, healthcare, job and life skills, and education for their children.

As they continue to improve quality and deepen their impact, we're proud to grow together—producing sustainable headwear that reflects our shared values of love, justice, integrity, and excellence.
